

Thank you very much, Madame Chair.

Firstly, the Indonesian Delegates once again would like to convey their deep appreciation and thankfulness for your efficient and effective chairmanship during the deliberation of important issues in this Session.

Secondly, the Indonesian Delegates would like to share with you and all of the member states that since the establishment of APCICT, Indonesia has been happily involving in APCICT programmes and activities, giving support to its policies and initiatives, which are in line with the statute of APCICT. In this context, Indonesia Government has been allocating certain amount of yearly state budget to implement, and to support APCICT programmes and activities <sup>in the country</sup> as in-kind contribution to the institution.

In this opportunity allow me to report to the Session that the Indonesia Government contributed as much as US \$ 500,000 in 2011, US \$ 350,000 in 2012, and US \$ 500,000 in 2013 to implement and to roll-out the Academy Modules in the training programmes and in the E-CIO Scholarship Programmes in the country. The Government intends to allocate as much as US \$ 500,000 next year (2014) to the same purposes. This hopefully can indicate the strong support <sup>given by the</sup> ~~of the~~ Indonesian Government to ~~the~~ APCICT programmes and activities.

The Indonesian Delegates would also like to express their hope and expectation to member countries to keep allocating a certain amount of in-kind contribution to support APCICT programmes and activities. The Delegates also hope and expect that the Management of APCICT will keep looking for new sources to finance the operation of the institution.

I thank you.

GATI GAYATRI
